

DoD RFID COMPLIANCE for UNDER \$8,500!!!

A fully functional, straightforward solution can be installed in minutes!

Generate Order

The PortalTrack® software solution gives the user the ability to build an order within moments. Simply designate the number and type of containers, pack contents and print DoD compliant RFID labels.

Upload Order

Instantaneously upload the order into WAWF or VIM-ASAP. Saves time and ensures accuracy by correctly specifying the contents and format of the order.

Validate Order

Once RFID labels are applied to shipping containers, let PortalTrack® ensure all labels correctly read. The software records information that can be quickly retrieved for a variety of reports.

Service & Support

Let Mid-South Marking Systems' factory trained RFID specialist keep your solution up and running long after the sale. Software, Hardware, Integration and RFID technical support – no contracts, no hassle!
